SKILLS

Programming Languages

- JavaScript
- Java
- HTML

Frameworks/Libraries

- React JS

Tools and Technologies

- GitHub
- VS Code

EDUCATION

Bachelor of Technology

Computer Science Engineering

Indur Institute of Engineering & Technology

2021-Pursuing

Telangana State Board Intermediate Education

MPC

Masterminds Junior College

2019-2021

98.6 percentage

Board of Secondary Education Gayathri High School

2019

10 GPA

Hobbies

- Storytelling
- Reading storybooks
- Volunteering
- Listening to music
- Exploring new things

PROFILE

A highly motivated and enthusiastic Computer Science Engineering student with a passion for Full-stack Development, seeking opportunities to apply programming skills and knowledge of HTML, CSS, JavaScript, Java, and React JS in a dynamic and challenging environment.

PROJECTS

1. Color Generator

- Developed a web application using ReactJS where users can generate different color shades based on the input color code they provide. Implemented features for dynamically generating shades and tints of the input color, offering users a customized color palette. Designed an intuitive user interface for seamless interaction.
- GitHub Link: <https://github.com/Kadavergu-Bhargavi/react-js-color-generator/tree/main>
- Deployed Link <https://color-generator-bhargavi.netlify.app/>

2. Grocery Bud

- Created a dynamic web application using ReactJS allowing users to manage their grocery lists efficiently. Implemented functionalities for adding, deleting, and editing items on the list, providing users with a seamless shopping experience. Incorporated a feature to clear the entire list with a single click for added convenience.

- Deployed Link : <https://grocery-bud-bhargavi.netlify.app/>

CERTIFICATIONS

- ReactJS Certification (March 24)
- Participated in an intensive workshop on ReactJS.
- Acquired practical skills in developing dynamic and interactive user interfaces using ReactJS components.
- Learned advanced techniques for state management, routing, and integrating external libraries.
- Mastered the implementation of React hooks for efficient and scalable application development.

Personal Attributes

- Excellent presentation skills
- Quick learner and adept at adopting new technologies
- Strong problem-solving abilities
- Effective team player with excellent communication skills
